

WealthQuest for Teens is a unique, dynamic seminar for teens who are committed to being successful leaders who live lives beyond the ordinary.

While there are many books and expert advice available for teens about budgeting, saving, and investing money, our seminars provide the missing link between knowing this information and making it happen in real life.

Participants examine the role attitudes and ideas play in being prosperous, unstoppable, and successful in all the important areas of their lives. WealthQuest sets up teens to

become wealthy members of the world community, as financially free leaders making a difference for the greater good of humanity as a personal self-expression.

Teens gain a basic understanding of the laws of money and see that by starting at a young age, wealth is easy to grow. In addition, participants learn to relate to money—to see money as fun and easy to manipulate and manage.

Participants develop a brilliant relationship with money that allows them to shape their philanthropic goals, set and accomplish personal goals, and learn basic principles of growing wealth.

WealthQuest is about money AND it's about wealth in all the important areas of life.

What to Expect at the Seminar

WealthQuest is a high-energy, interactive, fast-paced 3-hour seminar in which 20-30 teenagers, ages 14-18, develop positive, exciting ideas about how to grow wealth and begin the journey of personal prosperity as leaders committed to making a difference. Participants actually design their lives and gain the tools required to make their dreams become real.

Each seminar is led by Jill Suskind, a teacher with over twenty years of experience, who knows how to make learning lively, interactive, and fun.

"I am excited about the freedom one receives from financial independence...the memories you could create with the people you love...through adventures and experiences that can enrich one's life, adventures impossible to obtain without money."
